About Us

A family business, built on experience

I'm a very proud dad of five owner of this family-run wedding photography and film business based here in Northern Ireland.

Over the past 10 years, we've documented hundreds of wedding journeys — from every corner of our wee island to incredible destinations like Barcelona, Ibiza, El Campello, Cap Ferrat, New York and Monte Carlo. It's something I never take for granted.

No matter where the wedding is, the approach stays the same. Calm. Reliable. Focused on you enjoying your day.
Experience means knowing when to step in and guide — and when to step back and let moments happen naturally. That balance is what allows couples to relax, be themselves, and trust that everything is being quietly taken care of.

Our Shooting Style

Relaxed, fast, and genuinely good fun

Wedding days move quickly — and the last thing you want is to feel awkward or stuck in front of the camera.

Our biggest strength is how comfortable we make our couples feel.

We work quickly, having fun whilst creating space for real moments to happen — no long poses, forced smiles, or endless direction.

The emotion you see in our shots are real

We capture images and films that feel real — not rehearsed — and why couples often tell us afterwards how something they dreaded ended up one of the best parts of the day.

How The Day Flows

Calm, organised, fun and built around your priorities

Every wedding day is different, and we adapt our approach to suit you.

Ahead of the day, we'll talk through what matters most — including any family or formal photographs you'd like captured — so nothing important is missed.

We take the lead guiding you through the day to make sure your only job is to enjoy every last second of it

Wether its quickly organising those family formal shots or candidly capturing the magic in between we've got you covered
